Education

Masters of Computer Applications

Trident Academy Of Technology, Bhubaneswar, Odisha

| Sep 2024 – May 2026

| SGPA: 8.04 / 10

Bachelor's of Information Technology and Management

Lakshya Institute of Technology, Bhubaneswar

| Sep 2021 – Jun 2024

| CGPA: 7.50 / 10

Technical Skills

Language : Java, JavaScript

Frontend : HTML5, CSS3, Tailwind CSS, React.js

Backend : Node.js, Express.js, REST APIs

Databases : MongoDB, MySQL

Cloud & DevOps : AWS (EC2, S3, IAM, RDS, VPC), CI/CD Basics

Tools : Git, GitHub, VS Code, Firebase, Netlify, Canva

CS Fundamentals : OOPs, DBMS, Computer Networks

Experience

Sparkradix Technologies

July 2025 – Nov 2025

SDE Intern

HTML | JavaScript | Node | Express | React | Tailwind CSS | JSON

- Developed and deployed 2 full-stack intern projects, applying React and Tailwind CSS to build responsive, user-friendly interfaces.
- Integrated JSON-based APIs to fetch and render 300+ movie records, enabling real-time content updates with 99% accuracy.
- Enhanced performance by optimising reusable React components, reducing re-render time by 30% and improving load speed.

Projects

Promote Eco Cultural Tourism in Odisha | ReactJS | Node.js | Flask | JSON | Google Cloud (Link) Sep 2025 - Nov 2025

- Designed and optimised an AI-powered platform that delivers personalised recommendations and automates services, improving user engagement by 25%.
- Integrated 15+ Odisha heritage sites, eco-tourism locations, and local business partnerships into a digital platform, supporting Digital India initiatives and promoting sustainable tourism growth.
- Created and integrated an AI chatbot handling 500+ travel queries per day, providing instant assistance and boosting traveller satisfaction by 35%.
- **Geolocation Services:** Enables accurate location tracking and route planning for users to explore hidden tourist spots efficiently, with 38% accuracy.

Sunstroke Detection&Emergency Alert System | Google Fit API | Node.js | Android | Twilio API (Link) Aug 2024 - Oct 2024

- Developed an AI-based emergency alert system for real-time sunstroke detection and health monitoring.
- Integrated Google Fit API to collect health metrics such as heart rate, activity data, body temperature, and GPS location.
- Designed AI analysis workflows to detect sunstroke risk conditions based on body temperature and health parameters.
- Developed an automated emergency alert mechanism using Twilio API to send SMS alerts with live location tracking to emergency contacts.

Awards & Certifications

- **BPUT Tech Carnival | 2025 :** Achieved second runner-up in the Mobile App Development Contest at Biju Patnaik University of Technology, representing Trident Academy of Technology, recognized for innovation and design skills.
- **AWS Cloud Architecting – AWS Academy Graduate | 2025 :** This course helped me gain a deeper understanding of: Cloud architecture principles. AWS services like EC2, VPC, RDS, IAM, S3, and CloudFormation. Designing resilient, high-performing, secure, and cost-optimised systems on AWS.
- **DevTown | 2024 :** Created a Hotstar clone .page Received recognition and an award from the Microsoft Developer Student Clubs for outstanding contributions to DevTown.
